Jack Blake called Saturday ref further response to ExDir on IG report. He said he ready talk to RLB as requested but suggested we might wish get deadline extension since he away. Apparently no draft reply has been prepared - only an aide memoire for the discussion. Especially since Jack doesn't intend to fight and die on any point, I urged him to draft a response and we'll talk, hopefully in time for deadline (which is when??).

Jack really doesn't want to go along with suggested change to D/Recon (who ~~he~~ by what authority?) of contracting authority. He suggested we change present regulation to validate present delegation to contracting officers. Pending talking to Jack, will you look at this point, pls.
